- ▲ Cancel pairing through host speaker by long press Phone button of the host speaker, it will cancel the connection with slave speaker and the audio device.

- Cancel pairing through slave speaker by long press Phone button of the slave speaker, which only cancels the connection of the slave speaker with the host speaker.

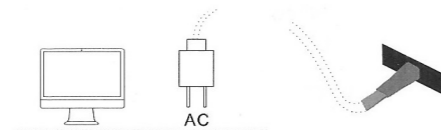

3 Power Bank connection

This speaker is powered by a rechargeable lithium battery. There are protections in place to guard against over-charging and over-discharging. For proper care, fully charge the speaker to 100% capacity before unplugging and using it. Proper care of the battery will result in a longer battery life.

4 Charging connection:

We recommend fully charging your speaker before commencing use. To charge the speaker using the supplied cable please connect the micro USB plug to the port that is located on the top of the speaker. The USB plug at the other end of the cable should be plugged into the USB port on your computer or appropriate charge. The battery level indicator will blink to indicate that the speaker is charging.

Troubleshooting

- **Speaker is not working:**
 - 1.If the light on the front of the speaker is not illuminated when attempting to switch on the speaker, the battery may be empty. Please connect the speaker to a PC or USB charger.
 - 2.The speaker shut down or has entered standby mode. Please press the power button until the indicator light turns on.
 - 3.The connection may have been lost due to the distance between the speaker and mobile/tablet, obstructions or low battery.
- **The speaker fails to connect via Bluetooth:**
 - 1.Check if Bluetooth is activated on your audio device and the speaker is paired.
 - 2.If you are unable to connect via Bluetooth with your Windows based tablet, PC or laptop it may be because your drivers need updating.
 - 3.Check if you entered the correct PIN number: 0000
 - 4.When searching for the speaker please ensure that your audio device is set to "Discoverable".
- **Fail to play music:**
 - 1.Bluetooth connection disruption can occur if devices have been paired for a period of time, or if you have numerous Bluetooth devices saved in your memory or due to a glitch. Please unpair the speaker and your device and make a new "paring".
 - 2.Check whether the music is paused.
 - 3.Check the volume level on the device and the speaker.
 - 4.Is the speaker connected to another device via AUX?
 - 5.Is the battery running low?
- **Music is suspended:**
Check whether the speaker is running out of power.

Warranty Support

This warranty just covers the speaker for its normal, intended use as specified in the User Manual and does not cover problems or damages that have resulted from the following:

1. Improper or unreasonable usage, maintenance or connection to an improper voltage supply or power surges.
2. Accidents or damages caused by excess moisture.
3. Improper packing.
4. Accident, abuse, misapplication, or any unauthorized repair, modification or disassembly.

Thank you very much for choosing us! For anything else please feel free to contact us on the Amazon website of our Aftersaleservice, or email to us via Gaoke2008@foxmail.com.
